

PROJECT REFERENCES

PP-R & PP-RCT pipes

Ajman Corniche Residences

- **Type:** Residential
- **Building Time:** Finished 2018
- **Location:** Dubai
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Al-Andalus Complex

- **Type:** Residential, Commercial & Retail
- **Building Time:** approx. until 2026
- **Location:** Hawally/Muhallab
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Al Khiran, Sabah Al

- **Type:** Entertainment, Commercial & Retail
- **Building Time:** approx. until 2025
- **Location:** Ahmad City
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Al Habtoor City Hotel

- **Type:** Commercial
- **Building Time:** 2014-218
- **Location:** Dubai
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Anchor Land Mandarin

- **Type:** Commercial
- **Building Time:** 2007-2009
- **Location:** Manila
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Sheikh Jaber Al Ahmad Cultural Centre

- **Type:** Entertainment & Commercial
- **Building Time:** 2013-2016
- **Location:** Kuwait
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

MEA Training Center

- **Type:** Commercial & Educational
- **Building Time:** 2017
- **Location:** Beirut
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Discovery Primea Hotel

- **Type:** Residential, Commercial & Retail
- **Building Time:** Finished in 2015
- **Location:** Makati City, Philippines
- **Application:** Hot & Cold water
- **Product:** POLYMUTAN pipes & fittings

Century Trump Tower

- **Type:** Commercial
- **Building Time:** 2012-2017
- **Location:** Makati City, Philippines
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Ras Al-Ard Club

- **Type:** Residential, Commercial & Retail
- **Building Time:** approx. until 2025
- **Location:** Kuwait
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

I'M TOWER

- **Type:** Condominiums
- **Building Time:** Finished 2021
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings

Nue Noble Chaengwat Tana

- **Type:** Condominium, 31 Floors
- **Building Time:** finished 2021
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes & fittings ML5

Pornprapa Residence

- **Type:** Village
- **Building Time:** Finished 2020
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11, SDR 6 & fittings

Amari Watgate (renovation)

- **Type:** Hotel
- **Building Time:** 2020
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 6 & fittings

Capella Bangkok Jareonkung

- **Type:** Hotel, 8 Floors
- **Building Time:** 2019
- **Location:** Manila
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11, SDR 6 & fittings

Government Housing Bank (renovation)

- **Type:** Office Building
- **Building Time:** 2020
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 6 & fittings

Kasikorn Bank Bang Pakong

- **Type:** Office Building
- **Building Time:** 2020
- **Location:** Chachoengsao
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11, SDR 6 & fittings

Tipco Tower Rama 6

- **Type:** Office Building, 29 Floors
- **Building Time:** Finished in 2019
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** POLYMUTAN pipes SDR 6 & fittings

Cimb Bank (renovation)

- **Type:** Office Building
- **Building Time:** Finished in 2019
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 6 & fittings

Mega Foodwalk, Bangna

- **Type:** Department Store, 3 Floors
- **Building Time:** Finished in 2021
- **Location:** Samut Prakan
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11, SDR 6 & fittings

Mega Bangna Plot D

- **Type:** Department Store, 3 Floors
- **Building Time:** Finished 2019
- **Location:** Samut Prakan
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11 & fittings

Chulabhorn Hospital (renovation)

- **Type:** Hospital (400 beds)
- **Building Time:** finished 2022
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 6 & fittings

Vimut Hospital

- **Type:** Hospital
- **Building Time:** Finished 2021
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11, SDR 6 & fittings

Panyapiwat Institute of Management EEC Campus

- **Type:** Academy
- **Building Time:** 2020
- **Location:** Chonburi
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 11 & fittings

Union Mall (renovation)

- **Type:** Shopping Centre
- **Building Time:** 2020
- **Location:** Bangkok
- **Application:** Hot & Cold water
- **Product:** ECOSAN pipes SDR 7.4 & fittings

ANNETTE PP-R piping system: Durable and sustainable installations.

All pipes and fittings belonging to the ECOSAN system are made from superior quality raw materials. Polypropylene Random (PP-R) is a thermoplastic material endowed with properties which make it ideally suitable for various types of application in the context of building installations. Equipped with a special stabilisation package, the material offers protection against oxidation and high temperatures.

The outstanding properties of ANNETTE Pipes

- Enormous durability thanks to high-quality materials and processing
- Homogeneous connection guarantees high operational reliability.
- High demands for hygiene guarantee perfect water quality.
- Good thermal load capacity, therefore high operational reliability.
- High chemical resistance guarantees high durability.
- Minor flow noise makes living highly comfortable.
- High dimensional accuracy and low weight, therefore time- and cost-saving pipe laying.

Suitable for universal use in:

- New buildings
- Refurbishment
- Repairs

For

- Potable H&C water
- Boiler connections
- Water distributing systems
- Rising lines
- Floor-level distribution
- Rainwater systems
- Outside pipe laying
- Compressed air systems
- Agriculture and horticulture
- Industries, for example the transportation of aggressive media (acids, alkaline solutions, etc.), taking into account its resistance to chemical agents
- Heating installations
- Shipbuilding
- Further media and possible applications upon request.
